Techniques and Instrumentation in Analytical Chemistry ... Analytical chemistry consists of classical, wet chemical methods and modern, instrumental methods. Classical qualitative methods use separations such as precipitation, extraction, and distillation. Identification may be based on differences in

color, odor, melting point, boiling point, radioactivity or reactivity. Analytical chemistry - Wikipedia Gain hands-on experience on Warwick's Analytical Sciences and Instrumentation MSc. Warwick's Chemistry department offers an expertly designed programme, combining the departments of Chemistry, Physics, Statistics, Engineering and Life Sciences.
