HERRING HOWELL

Know My Name HarperCollins

San Francisco Chronicle best-seller. *Wounds of Passion* is a memoir about writing, love, and sexuality. With her customary boldness and insight, Bell Hooks critically reflects on the impact of birth control and the women's movement on our lives. Resisting the notion that love and writing don't mix, she begins a fifteen-year relationship with a gifted poet and scholar, who

inspires and encourages her. Writing the acclaimed book *Ain't I a Woman: Black Women and Feminism* at the age of nineteen, she begins to emerge as a brilliant social critic and public intellectual. *Wounds of Passion* describes a woman's struggle to devote herself to writing, sharing the difficulties, the triumphs, the pleasures, and the dangers. Eloquent and powerful, this book lets us see the ways one woman writer works to find her own voice while creating a love relationship based on feminist thinking. With courage and wisdom she reveals intimate details and provocative ideas, offering an illuminating vision of a writer's life.

I be boy. All bliss boy. All fine beat. All beau boy. Beautiful. Famed author bell hooks brings us a tight, exuberant story that captures the essence and energy of what it means to be a boy. Chris Raschka's soulful illustrations buzz with a force that is the perfect match for these powerful words. Praise for *Be Boy Buzz*: *"This spare, poetic riff on young manhood plumbs the delights and contradictions of what it means to be a boy. . . . Hooks's rhythmic blend of brevity and eloquence launches Raschka's trademark visual haiku. . . . This life-affirming book will have readers as much 'in love with being a boy' as are its own utterly irresistible characters." -Publishers Weekly, starred review "[The] poetry is rhythmic and rolling, each word finessed to fit the pulse of [hooks's] verse. The lilt of the language is contagious, begging to be read aloud. . . . Raschka's mixed media illustrations are an energetic dream. . . . Buy it for the boys and all those who love them." -Bulletin for the Center of Children's Books "[A] pleasing and affirmative visual and textual interpretation of what it means to be a little boy: be boy buzz, indeed." -Kirkus Reviews

What are the conditions needed for our nation to bridge cultural and racial divides? By "writing beyond race," noted cultural critic bell hooks models the constructive ways scholars, activists, and readers can challenge and change systems of domination. In the

spirit of previous classics like *Outlaw Culture* and *Reel to Real*, this new collection of compelling essays interrogates contemporary cultural notions of race, gender, and class. From the films *Precious* and *Crash* to recent biographies of Malcolm X and Henrietta Lacks, hooks offers provocative insights into the way race is being talked about in this "post-racial" era.

An acclaimed expert illuminates the distinctive role that white women play in perpetuating racism, and how they can work to fight it In a nation deeply divided by race, the "Karens" of the world are easy to villainize. But in *Nice White Ladies*, Jessie Daniels addresses the unintended complicity of even well-meaning white women. She reveals how their everyday choices harm communities of color. White mothers, still expected to be

the primary parents, too often uncritically choose to send their kids to the “best” schools, collectively leading to a return to segregation. She addresses a feminism that pushes women of color aside, and a wellness industry that insulates white women in a bubble of their own privilege. Daniels then charts a better path forward. She looks to the white women who fight neo-Nazis online and in the streets, and who challenge all-white spaces from workplaces to schools to neighborhoods. In the end, she shows how her fellow white women can work toward true equality for all.

In *Bright Boulevards, Bold Dreams*, Donald Bogle tells—for the first time—the story of a place both mythic and real: Black Hollywood. Spanning sixty years, this deliciously entertaining history uncovers the audacious manner in which many blacks made a place for themselves in an industry that originally had no place for them. Through interviews and the personal recollections of Hollywood luminaries, Bogle pieces together a remarkable history that remains largely obscure to this day. We discover that Black Hollywood was a place distinct from the studio-system-dominated Tinseltown—a world unto itself, with unique rules and social hierarchy. It had its own talent scouts and media, its own watering holes, elegant hotels, and fashionable nightspots, and of course its own glamorous and brilliant personalities. Along with famous actors including Bill “Bojangles” Robinson, Hattie McDaniel (whose home was among Hollywood’s most exquisite), and, later, the stunningly beautiful Lena Horne and the fabulously gifted Sammy Davis, Jr., we meet the likes of heartthrob James Edwards, whose promising career was derailed by whispers of an

affair with Lana Turner, and the mysterious Madame Sul-Te-Wan, who shared a close lifelong friendship with pioneering director D. W. Griffith. But Bogle also looks at other members of the black community—from the white stars’ black servants, who had their own money and prestige, to gossip columnists, hairstylists, and architects—and at the world that grew up around them along Central Avenue, the Harlem of the West. In the tradition of Hortense Powdermaker’s classic *Hollywood: The Dream Factory* and Neal Gabler’s *An Empire of Their Own*, in *Bright Boulevards, Bold Dreams*, Donald Bogle re-creates a vanished world that left an indelible mark on Hollywood—and on all of America.

In childhood, bell hooks was taught that “talking back” meant speaking as an equal to an authority figure and daring to disagree and/or have an opinion. In this collection of personal and theoretical essays, hooks reflects on her signature issues of racism and feminism, politics and pedagogy. Among her discoveries is that moving from silence into speech is for the oppressed, the colonized, the exploited, and those who stand and struggle side by side, a gesture of defiance that heals, making new life and new growth possible.

In *Homegrown*, cultural critics bell hooks and Amalia Mesa-Bains reflect on the innate solidarity between Black and Latino culture. Riffing on everything from home and family to multiculturalism and the mass media, hooks and Mesa-Bains invite readers to re-examine and confront the polarizing mainstream discourse about Black-Latino relationships that is too often negative in its emphasis on political splits between people of color. A work of

activism through dialogue, *Homegrown* is a declaration of solidarity that rings true even ten years after its first publication. This new edition includes a new afterword, in which Mesa-Bains reflects on the changes, conflicts, and criticisms of the last decade.

Teaching Critical Thinking Simon and Schuster

Ten years ago, bell hooks astonished readers with *Teaching to Transgress: Education as the Practice of Freedom*. Now comes *Teaching Community: A Pedagogy of Hope* - a powerful, visionary work that will enrich our teaching and our lives. Combining critical thinking about education with autobiographical narratives, hooks invites readers to extend the discourse of race, gender, class and nationality beyond the classroom into everyday situations of learning. bell hooks writes candidly about her own experiences. Teaching, she explains, can happen anywhere, any time - not just in college classrooms but in churches, in bookstores, in homes where people get together to share ideas that affect their daily lives. In *Teaching Community* bell hooks seeks to theorize from the place of the positive, looking at what works. Writing about struggles to end racism and white supremacy, she makes the useful point that "No one is born a racist. Everyone makes a choice." *Teaching Community* tells us how we can choose to end racism and create a beloved community. hooks looks at many issues-among them, spirituality in the classroom, white people looking to end racism, and erotic relationships between professors and students. Spirit, struggle, service, love, the ideals of shared knowledge and shared learning - these values motivate progressive social change. Teachers of vision know that democratic education can never be confined to a

classroom. Teaching - so often undervalued in our society -- can be a joyous and inclusive activity. bell hooks shows the way. "When teachers teach with love, combining care, commitment, knowledge, responsibility, respect, and trust, we are often able to enter the classroom and go straight to the heart of the matter, which is knowing what to do on any given day to create the best climate for learning."

"When truth teller and careful writer bell hooks offers a book, I like to be standing at the bookshop when it opens." -Maya Angelou Renowned visionary bell hooks explored the meaning of love in American culture with the critically acclaimed bestseller *All About Love: New Visions*. She continued her national dialogue with the bestselling *Salvation: Black People and Love*. Now hooks culminates her triumphant trilogy of love with *Communion: The Female Search for Love*. Intimate, revealing, provocative, *Communion* challenges every woman to courageously claim the search for love as the heroic journey we must all choose to be truly free. In her trademark commanding and lucid language, hooks explores the ways ideas about women and love were changed by the feminist movement, by women's full participation in the workforce, and by the culture of self-help, and reveals how women of all ages can bring love into every aspect of their lives, for all the years of their lives. *Communion* is the heart-to-heart talk every woman -- mother, daughter, friend, and lover -- needs to have.

What does it mean to call a place home? Who is allowed to become a member of a community? When can we say that we

truly belong? These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book, *Belonging: A Culture of Place*. Traversing past and present, *Belonging* charts a cyclical journey in which hooks moves from place to place, from country to city and back again, only to end where she began--her old Kentucky home. hooks has written provocatively about race, gender, and class; and in this book she turns her attention to focus on issues of land and land ownership. Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s, she writes about black farmers, about black folks who have been committed both in the past and in the present to local food production, to being organic, and to finding solace in nature. Naturally, it would be impossible to contemplate these issues without thinking about the politics of race and class. Reflecting on the racism that continues to find expression in the world of real estate, she writes about segregation in housing and economic racialized zoning. In these critical essays, hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky. With characteristic insight and honesty, *Belonging* offers a remarkable vision of a world where all people--wherever they may call home--can live fully and well, where everyone can belong.

Cancel culture addresses real harm...and sometimes causes more. It's time to think this through. "Cancel" or "call-out" culture is a source of much tension and debate in American society. The infamous "Harper's Letter," signed by public intellectuals of both the left and right, sought to settle the matter and only caused greater division. Originating as a way for marginalized and disempowered people to take down more powerful abusers, often with the help of social media, cancel culture is seen by some as having gone "too far." Adrienne maree brown, a respected cultural voice and a professional mediator, reframes the discussion for us, in a way that points to possible ways beyond the impasse. Most critiques of cancel culture come from outside the milieu that produce it, sometimes from even from its targets. Brown explores the question from a Black, queer, and feminist viewpoint that gently asks, how well does this practice serve us? Does it prefigure the sort of world we want to live in? And, if it doesn't, how do we seek accountability and redress for

harm in a way that reflects our values?

Studying the Star Trek myth from the original 1960s series to the 2009 franchise-reboot film, this book challenges frequent accusations that the Star Trek saga refuses to represent queer sexuality. Arguing that Star Trek speaks to queer audiences through subtle yet provocative allegorical narratives, the analysis

pays close attention to representations of gender, race, and sexuality to develop an understanding of the franchise's queer sensibility. Topics include the 1960s original's deconstruction of the male gaze and the traditional assumptions of male visual mastery; constructions of femininity in Star Trek: Voyager, particularly in the relationship between Captain Janeway and Seven of Nine; and the ways in which Star Trek: Enterprise's adoption of neoconservative politics may have led to its commercial and aesthetic failure.

For bell hooks, the best cultural criticism sees no need to separate politics from the pleasure of reading. *Yearning* collects together some of hooks's classic and early pieces of cultural criticism from the '80s. Addressing topics like pedagogy, postmodernism, and politics, hooks examines a variety of cultural artifacts, from Spike Lee's film *Do the Right Thing* and Wim Wenders's film *Wings of Desire* to the writings of Zora Neale Hurston and Toni Morrison. The result is a poignant collection of essays which, like all of hooks's work, is above all else concerned with transforming oppressive structures of domination.

A groundbreaking book that dissects a slanderous history dating from cinema's earliest days to contemporary Hollywood blockbusters that feature machine-gun wielding and bomb-blowing "evil" Arabs Award-winning film authority Jack G. Shaheen, noting that only Native Americans have been more

relentlessly smeared on the silver screen, painstakingly makes his case that "Arab" has remained Hollywood's shameless shorthand for "bad guy," long after the movie industry has shifted its portrayal of other minority groups. In this comprehensive study of over one thousand films, arranged alphabetically in such chapters as "Villains," "Sheikhs," "Cameos," and "Cliffhangers," Shaheen documents the tendency to portray Muslim Arabs as Public Enemy #1—brutal, heartless, uncivilized Others bent on terrorizing civilized Westerners. Shaheen examines how and why such a stereotype has grown and spread in the film industry and what may be done to change Hollywood's defamation of Arabs.

20 Warning Signs of Down Low Brothers Lulu.com

World-renowned scholar and visionary bell hooks takes an in-depth look at one of the most critical issues facing African Americans: a collective wounded self-esteem that has prevailed from slavery to the present day. Why do so many African-Americans—whether privileged or poor, urban or suburban, young or old—live in a state of chronic anxiety, fear, and shame? *Rock My Soul: Black People and Self-Esteem* breaks through collective denial and dares to tell this truth—that crippling low self-esteem has reached epidemic proportions in our lives and in

our diverse communities. With visionary insight, hooks exposes the underlying reality that it has been difficult—if not impossible—for our nation to create a culture that promotes and sustains healthy self-esteem. Without self-esteem people begin to lose their sense of agency. They feel powerless. They feel they can only be victims. The need for self-esteem never goes away. But it is never too late for any of us to acquire the healthy self-esteem that is needed for a fulfilling life. hooks gets to the heart and soul of the African-American identity crisis, offering critical insight and hard-won wisdom about what it takes to heal the scars of the past, promote and maintain self-esteem, and lay down the roots for a grounded community with a prosperous future. She examines the way historical movements for racial uplift fail to sustain our quest for self-esteem. Moving beyond a discussion of race, she identifies diverse barriers keeping us from well-being: the trauma of abandonment, constant shaming, and the loss of personal integrity. In highlighting the role of desegregation, education, the absence of progressive parenting, spiritual crisis, or fundamental breakdowns in communication between black women and men, bell hooks identifies mental health as the new revolutionary frontier—and provides guidance for healing within the black community.
